

## *Linux for DesignWare® ARC® Bookshelf*

---

### **ARC® Linux Release Notes**

Contains a summary of the release and the release changes, including what's new, changes, and information about the latest known issues.

### **ARC® Linux Getting Started**

Tells how to build and install ARC Linux and U-boot.

### **Full-Text Search**

To search across multiple PDF documents using Adobe Reader, select **Edit > Advanced Search**. Enter or navigate to the folder that contains the PDF documents. Type a search word or phrase and click **Search**.

Advanced search returns a list of documents containing items that match your search query, with documents more likely to contain relevant information listed first.

#### **NOTE**

The Acrobat browser plugin does not include advanced search.

If you do not have the free Adobe Reader, or if your version does not have advanced search, download the latest version from <http://www.adobe.com/>.
